

ISIS Papyrus Asia Pacific Ltd are looking for experienced, ambitious Software Implementation Consultants to join their international team. This position is suited to an already successful consultant who wants to be part of a company that is leading the way with its innovative technology within the Enterprise Content Management and Adaptive Case Management arena.

As a Consultant within our professional services team based in Singapore, your main focus will be to demonstrate, configure, implement, and support an industry leading software solution. With a proven ability to excel in a customer-facing role, you'll have a natural ability to pick up new and innovative technologies, and be able to liaise with clients through all phases of a project from proof of concept to go live. Full training in our Headquarters in Austria/Europe on the company's product range will be provided to the successful candidates.

IT Technical Consultant for Software Implementation

Key Responsibilities:

- Present and provide training for Papyrus products and solutions to technical and managerial audience
- Design end-to-end solutions to meet the customer needs using Papyrus products
- Perform various project management assignments
- Design and test new Papyrus frameworks and solutions
- Setup and configure Papyrus products

Your profile:

- Minimum 2 years experience
- Knowledge of object oriented programming and scripting languages
- Experience in designing and implementing complex software solutions
- Must be willing to travel up to 70% of working time

We offer:

- Dynamic, open, multinational work environment
- Responsibilities matching your individual strengths and interests
- Personal progression within the company
- Long term employment in a profitable company
