ISIS Papyrus is a profitable, privately owned group of companies founded in Austria. The software enables business applications for digital transformation and communication. We have more than 350 employees worldwide.
ISIS Papyrus now has 16 branches on three continents with headquarters in Austria, America and Singapore.

Due to exciting new customer projects, Papyrus Software is looking to recruit talented and ambitious talents to join our professional services team.

Mobile Device Developer

Your tasks:

- Continuously research new mobile device technologies autonomously and train yourself on your own initiative
- Development of a mobile app-driver, which is configurable in general and via our Papyrus EYE-system and which provides operational guidance for our applications

Your profile:

- Experience in Mac OS X using Mac Objective-C (Xcode)
- 2+ years experience in GUI programming
- Knowledge in object-oriented software development
- Fluent in English (speaking/writing)
- Creative thinking
- Ability to work flexibly and without supervision

Any of the following would be advantageous:

- iPhone-SDK
- Experience in user interface programming for mobile phones
- Experience with QT programming
- Knowledge of Flash and/or Actionscript

Why ISIS Papyrus?

- Dynamic, open, multinational work environment
- Responsibilities matching your individual strengths and interests
- Personal progression within the company
- Long term employment in a profitable company

Become part of our company and apply now with your CV and picture at

recruitment@isis-papyrus.com

An extremely attractive, performance-based and transparent remuneration system is waiting for you.

Annemarie Pucher, CEO
